

Phil 60D

Cod.62052D

Notch filter against noises at cabinet level, with toroidal coil, used on the power line communication.

PHIL 60D reduce the effects coming from an outdoor power supply network, which could cause malfunctions to an installation.

The filter can be used even to avoid that the Power-line signal spreads out in not proper areas and that any capacitive charge connected in the installation cause a diminishing of the signal itself.

Technical specifications

Working voltage
230 V~ +/- 10%

Power dissipated
0,75W @ 20A
2,50W @ 40A
6W @ 60A

Charge max. Current
60 A

Protection degree
IP20

Dimensions
71 x 91 x 72 mm (4 DIN modules)

Weight
600 gr
