

Andros TRS

Code 61928

Power supply module at cabinet level.

It provides the function to supplementary supply power to ANDROS CMS. The installation of **ANDROS TRS** needs when more than 5 ANDROS PLS modules are connected to only one single ANDROS CMS.

Technical Features

Primary working voltage:	230 V~ +/- 10%
Secondary nominal voltage:	12V~
Nominal power:	20 VA
Secondary short-circuit protection:	Restoration PTC
Electrical Insulation degree:	Class II (double insulation)
Protection degree:	IP 20
Dimensions	71x90x70 mm (4 DIN modules)
Weight:	570 gr
