

## Andros TR

Code 61992

Power supply module at cabinet level.

**Andros TR** delivers the power supply voltage 15Vca to the connected devices.

A single **ANDROS TR** module can supply power to a control unit **ANDROS CM**, or **ANDROS CMS 5** **ANDROS PL/ANDROS PLS** modules max.

In case more than 5 **ANDROS PL/PLS** modules are connected to a single **ANDROS CM** it will be necessary to foresee a supplementary power supply device

**ANDROS TRS.**

### Technical Features

Primary working voltage:	230 V~ +/- 10%
Secondary nominal voltage:	15 V~
Nominal power:	20 VA
Secondary short-circuit protection:	Restoration PTC
Electrical Insulation Class:	II (double insulation)
Protection degree:	IP 20
Dimensions	71x90x70 mm (4 DIN modules)
Weight:	570 gr
