WINNER : TSB High Growth Potential Business 2010
Highly Commended: Green Technology Award

In what we believe to be a unique, complete offering, Minos Systems UK can provide exactly the type of streetlighting solution required to work with the type of streetlights you have.

Our technology is innovative and exciting. We also understand how to balance this level of performance with your budget, maximising your existing streetlight stock, so we can work with you to supply the technical expertise required to achieve your goals:

- reduced carbon emissions
- lower energy bills
- reduced light pollution

Through our extensive experience with The Highways Agency and local authorities within the UK, we are well placed to create a solution that works for you. We can work with your organisation, understanding your technical and practical requirements, to maximise your budget and achieve your aims.

LOWER CARBON EMISSIONS
LOWER ENERGY BILLS
REDUCED LIGHT POLLUTION

Streetlighting Control • CCTV • Broadband • Vehicle Battery Charge
